The Mountain Place of Knowledge

by Marshall Chamberlain (Goodreads Author)

Michele's review

Jul 01, 14

Read in June, 2014

I actually read and reviewed the second book in this series, The Ice Cap and the Rift, before I read this one (the first). I mentioned that I probably should have read the first first and the author read my review. He wrote back to me and asked if I would like to review the Mountain Place of Knowledge. Of course I said yes and it was sent to me! Thank you so much. A lot of the questions I had are now answered--whew--

This book is every bit as good as the second. It really keeps you turning those pages late into the night. I just did not want to put it down! There is political intrigue aplenty surrounding a mountain in Belize. What is inside the mountain will astound and astonish you. I am eagerly awaiting the third and final book in this series, The Numarians. I can not say enough nice things about this author and his books! [The Mountain Place of Knowledge](#)
